Testimonials

- Jim Tremayne | Editor, DJ Times Magazine

“From my experience with him, Mikey has always been a reliable photographer, someone who always turns in great work and, crucially, he can crank it out quickly. He has a terrific eye and he always seems to have a great rapport with his subjects. Getting great shots in a nightclub isn't as easy as it seems, but Mikey can do it with the best of them.”
- Emily Tan | Publicist (Emily Tan Media Relations) | Journalist (DJ Times Magazine) | On-Air Radio Talent (Sirius XM Satellite Radio)

"Mikey McNulty's seen me through some pretty stressful work episodes, recently, and I value the calming effect he has on people. He's efficient, cooperative and unassuming. He gets some really good shots -- both live action, backstage, and in-the-studio -- and I think part of the reason is that he endears himself to the DJs/performers he photographs. I intend to continue working with him."
- Darude | Robbins Entertainment

"Mikey's pictures bring the night back alive again and again with the moments and feelings captured in brilliant color and sense of depth. Being shot by him was easy, he works around you, with your terms."
- Randy Boyer | A State of Trance | Flashover | Vandit | Ultra | Coldharbour | Armada

“Mikey McNulty has been my photographer for the past four years and his talent has been an invaluable asset to my career as a DJ/Producer. Mikey has covered almost all of my gigs and delivers top notch coverage every time. He takes stunning DJ shots and plenty of people pictures, which really drives my fans to visit my website so they can relive the moments and spot themselves in the crowds. We have done countless photo shoots which has given me perfect material to use for gig promotions, websites, album covers & more. He is always professional but what stands out most is his passion deliver the most unique and creative work this industry has seen.”
